1.2 Relevant identified uses of the substance
Most common technical function of Polyisoprene: tyre production, technical rubber parts (profiles, hoses, shoe soles, belt production, technical rubber goods), rubber compound, medical production.

DISCLAIMER
This product is a polymer and is not classified as dangerous under criteria of Directives No 67/458/EEC, No 1999/45/EC and Regulation (EC) No 1272/2008 (Regulation CLP). This polymer does not contain substances classified as dangerous under Article 59.2 Regulation (EC) No 1272/2008, namely:
- in an individual concentration of ≥ 1 % by weight for non-gaseous mixtures posing human health or environmental; or
- in an individual concentration of ≥ 0.1 % by weight for non-gaseous mixtures that is carcinogenic category 2 or toxic to reproduction category 1A, 1B and 2, skin sensitiser category 1, respiratory sensitiser category 1, or has effects on or via lactation or is persistent, bioaccumulative and toxic (PBT) in accordance with the criteria set out in Annex XIII or very persistent and very bioaccumulative (vPvB) in accordance with the criteria set out in Annex XIII; or
- a substance for which there are Community workplace exposure limits.

In accordance with mentioned above, this product does not require and official e-SDS as per Regulations (EC) No 1907/2006 (articles 31.1; 31.2) and Commission Regulation (EU) No 453/2010.
This e-SDS is developed in good faith to provide a customer with sufficient information allowing to take necessary measures to comply with relevant HSE requirements.
1.3 Details of the supplier of the safety data sheet

Only representative:

Company name: Gazprom Marketing and Trading France  
Address: 68 avenue des Champs-Elysées, Paris, 75008, France  
Contact phone: +33 1 42 99 73 50  
Fax: +33 1 42 99 73 99  
Email address: yury.severinchik@gazprom-mt.com

Suppliers

Company name: Togliattikauchuk LLC *  
Address: Novozavodskaya str. 8, 445007, Togliatti*, Samara Region, Russian Federation  
Phone: +7 8482 29-91-51; 23-11-04; 29-32-69  
Fax: +7 8482 22-14-41; 70-15-18  
E-mail Address: officetk@tltk.ru; office@tltk.ru  
Emergency phone: +7 8482 29-91-51 (round the clock)

*Other valid translation of the city name is Tolyatti, therefore the plant name "Tolyattikauchuk" is also valid.

SECTION 2. HAZARDS IDENTIFICATION

Classification:

ANNEX I OF DIRECTIVE 67/548/EEC:  
Physical/Chemical Hazards: None.

Health Hazards: None.

Environmental hazards: None.

EU CLP 2008:  
Physical / Chemical Hazards: None.

Health Hazards: None.

Environmental hazards: None.

Specific hazard:  
No significant health hazard in normal industrial use conditions.  
Contact with melted/heated product may cause thermal burns.  
Processing vapours, which can irritate eyes and respiratory tract, may form when product is heated to high temperatures.  
Combustible solid.  
Products of thermal decomposition – toxic.
SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Grade IR SKI-3 is a synthetic rubber, consisting of at least 98.0% polymerised isoprene. It contains 0.15-0.4% antioxidant (CAS#793-24-8; EC#212-344-0) and 0.6-1.4% stearic acid (EC#200-313-4; CAS#57-11-4).

Grade IR SKI-3 NST is a synthetic rubber, consisting of at least 98.0% polymerised isoprene. It contains 0.2-1.3% antioxidants (CAS#128-37-0/EC#204-881-4 or CAS#119-47-1/EC#204-327-1) and 0.5-1.5% stearic acid (EC#200-313-4; CAS#57-11-4).

FORMULA  \((\text{IC}_3\text{H}_8)_n\)

\((-\text{CH}_2-\text{C}=\text{CH}-\text{CH}_2-)_n\)

\[
\text{CH}_3
\]

</tbody>
</table>

The product does not contain impurities or additives that could affect product’s labelling and classification according to Regulation (EC) No 67/548/EEC and Regulation (EC) No 1272/2008 (CLP) in the concentration ranges specified.

SECTION 4. FIRST-AID MEASURES

General information:
Spontaneous penetration of Polyisoprene rubber into human organism is impossible. Polyisoprene rubber at normal conditions is non-volatile, causes no exhaustive effects. Inhalational poisoning is not probable. Contact with eyes may cause mechanical damage, irritation and conjunctivitis were not observed. Contact with skin causes no irritation. If the product has a high temperature, contact with skin causes burn.

Inhalation:
If decomposition or thermal destruction products are inhaled:
Move an exposed person to fresh air at once. Keep warm and at rest. If there is respiratory distress give oxygen. If respiration stops or shows signs of failing, apply artificial respiration. Get medical attention.

Ingestion:
In case of accidental swallowing:
Rubber particles in case of accidental penetration of the airways may cause mechanical irritation of respiratory tract, cough. In this case the following actions are to be taken.
Wash out mouth with water and give plenty of water to drink, provided person is conscious. Do not induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. If vomiting occurs naturally, have the exposed person lean forward. Get medical aid.
Skin contact:
After contact with hot product immediately wash skin with large volume of cold water. Get medical attention.

Eye contact:
Rinse immediately eye with plenty of low pressure water for at least 15 minutes. Remove contact lenses. Get medical attention.

SECTION 5. FIRE-FIGHTING MEASURES

Specific hazards:
Combustion generates irritating and toxic fumes. Burning causes emission of carbon dioxide and water.

Extinguishing media:
The substance is flammable. Use water or water spray, foam, dry chemical, carbon dioxide, or water spray.

Special fire fighting procedures:
Keep away from sources of ignition - no smoking.

Unusual fire & explosion hazards:
None.

Protective measures in fire:
Wear full protective clothing and MSHA/NIOSH-approved self-contained breathing apparatus with full face piece operated in the pressure demand or other positive pressure mode.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions:
See section 8.

Environmental precautions:
Take precautionary measures against discharges into the environment.

Spill clean up methods:
Sweep spilled substance into containers. Avoid generating dusty conditions and provide ventilation. All equipment must be grounded.

SECTION 7. HANDLING AND STORAGE

Protection against fire and explosion:
Observe fire safety rules. Use extract and input ventilation. Use antistatic and intrinsically safe equipment. Assure air tightness of equipment and communications.

Usage precaution:
Avoid inhaling vapors and fumes from hot rubber.
Use extract and input ventilation.
Use PPE if necessary.
Do not ingest or inhale.
Avoid contact with eyes and skin.
Minimise dust generation and accumulation.
Remove all sources of ignition.
All equipment must be grounded.
Wash thoroughly after handling.

**Storage precautions:**
Store in a cool, dry, well-ventilated area away from direct sunlight and incompatible substances in a closed container.
Keep away from source of open fire.

### SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Exposure limits:**
None listed.

**Protective equipment:**
Protective gloves, safety goggles and protective clothing.

**Respiratory equipment:**
Wear positive pressure self-contained breathing apparatus if warranted by workplace conditions.

**Hand protection:**
Wear approved protective gloves.

**Eye protection:**
Wear approved safety goggles.

**Hygiene measures:**
Wash at the end of each work shift and before eating, drinking, smoking or using the toilet.

**Skin protection:**
Wear protective clothing.

### SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

<table>
<thead>

<tr>
<td>Specific gravity</td>
<td>0.92 g/cm³</td>
</tr>
</tbody>
</table>
Glass transition temperature  28-40 °C
Viscosity according to Muni  65-85 conv.units (at 100°C)
Solubility  insoluble in water
           soluble in aromatic solvent
Explosive properties  non explosive
Granulometry  not applicable
               substance is not marketed or used in granular form

SECTION 10. STABILITY AND REACTIVITY

Stability:
The rubber is stable provided there is the antioxidant and the storage conditions are followed.
High temperatures may cause emissions of isoprene.

Reactivity:
Lack of antioxidant causes hydration, halogenation, cyclization, isomerization, oxidation, oxidative
destruction.

Materials to avoid:
Strong oxidising agents, alkalis, acids.

Conditions to avoid:
Avoid high temperatures, naked flames, sparks, long term exposure to direct sunlight, contact with
incompatible materials.

Hazardous decomposition products:  
Hazardous substances of thermal destruction: spirits, aldehydes, ketones, arbon oxides.

SECTION 11. TOXICOLOGICAL INFORMATION

General:  
DL₀ (oral, rats): 1000 mg/kg (Russian Register of Potentially Hazardous Chemical and Biological
Substances /FBEPH)

Inhalation:
Polyisoprene rubber has no local irritating effect on the gastrointestinal tract when inhaled,
conjunctiva, skin-resortptive and sensitizing effect.

Ingestion:  
Not applicable.

Skin contact:  
There is no irritant effect on skin.

Eye contact:  
There is no irritant effect on eyes.
SECTION 12. ECOLOGICAL INFORMATION

Ecotoxicity:
The product is poorly biodegradable but does not pose a hazard to the environment.

Water Hazard Classification:
According to the German VwVwS: WGK- 0 (not classified).

SECTION 13. DISPOSAL CONSIDERATIONS

General information:
Place into a suitable closed container for disposal.

Disposal methods:
Dispose of in accordance with local and national regulations.

SECTION 14. TRANSPORT INFORMATION

General:
The product is not covered by international regulations on the transport of dangerous goods.

UN: none.

SECTION 15. REGULATORY INFORMATION

REGULATORY
Chemical Safety Report has been performed for monomers: isoprene (CAS #78-79-5; EC #201-143-3).

SECTION 16. OTHER INFORMATION

16.1 Indication of changes

<table>

<td>1. Product name SKI-3 and SKI-3S were renamed into IR SKI-3, IR SKI-3 NST accordingly. 2. Index No (CLP) was added to Section 1.1 3. CAS # was added to Section 1.1 4. DISCLAIMER was added on the first page 5. Подраздел «Specific hazard» was fully updated in Sections 5. 6. DL0 was added in Section 11. 8. Sections 3, 4; 7; 9, 10; 15, 16 were fully updated.</td>
</tr>
</tbody>
</table>
16.2 Relevant R-phrases, Hazard- and EU Hazard-statements

Labelling: none.

R-phrases: none.

Safety Advice (S-phrases):
S 16 Keep away from sources of ignition - no smoking
S 41 In case of fire and/or explosion do not breathe fumes
S 43.2 In case of fire use water or powder mixtures
S 47 Keep at temperature not exceeding 40°C

16.3 Abbreviations and acronyms

DL0 Lethal Dose to 100% of a test population
LC50 Lethal Concentration to 50 % of a test population
PBT Persistent, bioaccumulative, toxic chemical
vPvB Very Persistent, Very Bioaccumulative
UN United Nations
WGK Wassergefährdungsklasse (German: Water Hazard Class)
